1. Connect included Power Supply to the camera.
2. Wait for camera to come to Home Position.
3. Connect included USB 3.0 cable to camera and USB 3.0 port of PC (unit is also backwards compatible with USB 2.0 port).
4. Select and configure camera in your software of choice.

NOTE: Failure to follow this sequence may result in no connection to PC.

Care Of The Unit.....

Remove dust or dirt on the surface of the lens with a blower (commercially available).

Installation Instructions.....

Desktop Installation.....

When using the HuddleCam™ on a desk, Make sure that it will stand level. If you want to use the camera on an incline, make sure the angle is less than 15 degrees to ensure that the camera's pan and tilt mechanism operates normally.

Tripod Installation.....

When using the HuddleCam™ with a tripod, screw the tripod to the bottom of the camera. The tripod screw must fit below specifications:

Note: Tripod must stand on a level surface.

$$\varnothing = 5 - 7 \text{ mm}$$

Ceiling Mount.....

<p>Step 1:</p>  <p>Ceiling Bracket</p>	<p>Ceiling</p> <p>For hard ceilings - Use the supplied plastic anchors and screws to fix the ceiling bracket to the ceiling.</p> <p>For acoustic tile ceilings - Cut a piece of plywood 12" x 23.75" to use as a tile bridge above the ceiling tile. Use the supplied screws (without plastic anchors) to fix the ceiling bracket to the plywood, sandwiching the ceiling tile in between. Do not over-tighten.</p> <p>NOTE: The four raised areas of the ceiling bracket must face towards the ceiling.</p>
<p>Step 2:</p>  <p>Slotted bolts</p> <p>Camera Bracket</p>	<p>Use the two slotted bolts to fix the camera bracket to the bottom of the camera body. The 1/4-20 bolt is for the threaded insert in the camera body. The smaller bolt threads into the bracket and pins the camera in place using the unthreaded opening on the camera body.</p>
<p>Step 3:</p>  <p>Slide the camera and camera bracket assembly on to the ceiling bracket, allowing the 2 slotted bolt heads to fit over the large keyhole opening in the ceiling bracket. Slide the camera and camera bracket until both bolt heads are fitted into the narrower slot of the large keyhole opening.</p>	
<p>Step 4:</p>  <p>Lock Screws</p>	 <p>Use the locking screw to lock the ceiling and camera brackets together to finish the installation.</p>
